Now change the file's extension to the extension of the type which you want to change into. In this example, we change a 'text' file to a 'python' file. The extensions for a text file are 'txt' and for python 'py'. Process of changing a file type. Here is a list of common file extensions used in the world of computing. We have ...

How to Change File Type in Windows 10 - Appuals.com

The easiest way to change a file's extension is to save the file as a different file type from within a software program. Changing the file extension in the file name won't change the file type, but will cause the computer to misidentify the file. In Windows and Mac OS X, file extensions are often hidden.
